The Field Club PROGRAM DESCRIPTIONS

MIGHTY STARS

Each class will emphasize hand-eye coordination, basic stroke technique, and movement skills through a series of fun games and activities.

FUTURE CHAMPS

Students will focus on sound stroke development. Match play will be introduced using the quick start format but with some adaptations based on each classes progress.

RISING STARS & COMPETITORS

Students will continue to develop sound strokes and grips, proper footwork and basic strategy during match play. Video analysis will be introduced, as well as agility and fitness training.

CHALLENGERS ADV. & HIGH PERFORMANCE

My philosophy for this program is "Serious Fun". During this program, students will work on finetuning all aspects of the game, including footwork patterns, modern stroke fundamentals, efficient strategy and mental efficiency training for match play. We will also use video analysis to assess proper technique as well as fitness and conditioning training to help develop player speed, agility and strength.
